Traffic Report 2014

Introduction

This report is comprised of two parts. The first part provides a review on the traffic accidents and casualties in 2014, and the second part details police enforcement action taken in the same period.

2. The objectives of this report are threefold. Firstly, it provides a statistical illustration of traffic accident and casualty figures and the overall enforcement action during the period under review. Secondly, it enables Regional and District Police management teams to evaluate the effectiveness of their own enforcement action in promoting road safety. Lastly, it avails data for research and analysis of traffic accidents by interested bodies.

Overall Situation

Traffic Accidents

- 3. When compared with 2013, the total number of traffic accidents involving casualties decreased by 299 cases (-2%), from 16 089 cases to 15 790 cases. Fatal accidents registered a decrease of 29 cases (-23%), from 128 cases to 99 cases. [Table 1]
- 4. Road junctions and pedestrian crossings continued to be locations where traffic accidents were most likely to occur. Of the 15 790 accidents, 3 705 cases (23%) occurred at or in the vicinity of road junctions, while 6 813 cases (43%) occurred at or near pedestrian crossings. Drivers' fault accounted for 79% (12 408 cases) of all traffic accidents.
- 5. In respect of the type of vehicles involved in traffic accidents, 'private car' formed the largest group at 7 224 (30%), followed by 'taxi' at 4 211 (17%), 'goods vehicle' at 3 748 (15%), 'bicycle' at 2 576 (11%), 'franchised public bus' at 2 327 (10%) and 'motorcycle' at 2 281 (9%). However, working on the accident rate per 1 000 licensed vehicles, the most accident prone vehicle type was 'franchised public bus' at 402, followed by 'public light bus' at 250, 'taxi' at 233, 'other public bus' at 75, 'motorcycle' at 53 and 'private bus' at 47. The accident rate for private car was only 15, the lowest among all vehicle classes. [Table 11]

Traffic Casualties

- 6. When compared with 2013, the total number of traffic casualties decreased by 742 persons (-4%), from 20 596 persons to 19 854 persons. Of the 19 854 casualties, 100 persons were killed, representing a decrease of 30 persons (-23%). [Table 21]
- 7. Regarding the categories of casualties, drivers (including motor-cyclists and cyclists) formed the largest group. There were 9 590 drivers (48%) injured, followed by 6 660 passengers (34%) and 3 604 pedestrians (18%). Pedestrian casualties recorded a higher rate of fatalities and serious injuries than those of other categories of casualties. Elderly pedestrians aged 60 or over remained the most vulnerable group in fatal traffic accidents. There were 7 cyclists killed in 2014, which represents an increase of 17% when compared with the 6 cyclists killed in 2013. [Table 25 & Table 27]

Traffic Enforcement

- 8. Police enforcement action during 2014 continued to focus on reducing traffic accidents and improving traffic flow. When compared with 2013, the overall enforcement decreased by 1% to 1 557 578. [Table 29]
- 9. On Drink Driving enforcement, a total of 206 820 drivers were breathalysed, an increase of 5% when compared with 2013. 930 drivers were found to have exceeded the prescribed limits whilst 384 drivers were below the limit, but had consumed some alcohol. The 'hit-rate' for drivers over the legal limit dropped encouragingly from 0.48% in 2013 to 0.45% in 2014. [Table 30]
- 10. In 2014, 709 drivers were convicted of various Drink Driving offences. Fines imposed ranged from \$200 to \$25,000 with disqualification periods varying from 1 to 65 months. 21 drivers were sentenced to imprisonment for 14 days to 3 months.
- 11. In 2014, 111 Drug Influence Recognition Observations (DIRO) and 10 Impairment Tests (IT) were conducted. As a result, a total of 38 drivers were arrested for drug driving, a 3% increase when compared with the 37 cases recorded in 2013. [Table 30]

- 12. Operations targeting seatbelt offences have been coordinated by Traffic Branch Headquarters (TBHQ) since November 2005. Three operations were performed in January, April and July 2014 with a total of four PLB drivers and 579 PLB passengers summonsed.
- 13. In 2014, Police received 3 168 taxi related complaints from members of the public and 1 896 referrals from the Transport Complaints Unit, making a total of 5 064 reports that required Police investigation, a decrease of 15% when compared with 5 923 cases in 2013. A total of 2 801 prosecutions were instituted against taxi related offences, a decrease of 24% when compared with 3 670 cases in 2013. [Table 32 & Table 33]
- 14. To address concerns over cycling safety, Operations targeting cycling offences have been coordinated by TBHQ since 2003. Four operations were conducted in February, April, July and September 2014 with a total of 3 392 summonses and 567 verbal warnings issued to cyclists.
- 15. In 2014, a total of 2 339 persons were disqualified from driving. An increase of 1% was noted when compared with 2 316 persons in 2013. The risk of disqualification through accumulating 15 or more demerit points within 24 months remains an effective tool in maintaining driving standards.

Traffic Branch Headquarters Hong Kong Police Force May 2015

Explanatory Notes

Accidents

Each accident figure represents one incident although it may involve more than one vehicle and more than one casualty.

Accident Analysis

The primary or contributory cause of any traffic accident referred to in this report represents the assessment by the police officer investigating the traffic accident.

Accident Blacksite

If nine or more injury accidents, or six or more pedestrian injury accidents occur at a location in the previous 12 month period, the location will be classified as a *Traffic Accident Blacksite**. Since 2010 Q1, locations where 2 or more fatal traffic accidents occurred in the previous 5 years, will also be classified as a *Traffic Accident Blacksite**.

Fatal Accidents

A traffic accident in which one or more persons dies within 30 days of the accident.

Serious Accidents

A traffic accident in which one or more persons injured and detained in hospital for more than twelve hours.

Slight Accidents

A traffic accident in which all persons involved are either not detained in hospitals or detained for not more than twelve hours.

Fatal Casualty

A person dies within 30 days of the accident.

Serious Casualty

A person injured who is treated in hospital as an 'in-patient' for more than 12 hours. Injuries causing death 30 or more days after the accident are also included in this category.

Slight Casualty

A person with injury of a minor nature such as a sprain, bruise or cut not judged to be severe, or slight shock requiring attention and treatment in hospital is less than 12 hours, or not required.

* Criteria set by the Transport Department
